

ENVIRONMENTAL POLICY

The Environmental Policy of Bradwell Skip Services (BSS) is to collect, sort and recycle waste in a manner that is safe and protective of our employees, neighbours, customers, other interested parties and the environment.

The transferring and recycling of the waste produces certain environmental emissions and as a result BSS has made a commitment to continually improve its business activities. This will be achieved in conjunction with the following principals:

To operate BSS facilities so as to prevent or reduce pollution and to conserve energy, water and raw materials using best practice where economically viable.

To ensure that as far as is reasonably practicable, BSS services can be developed, distributed, used and returned in a safe and environmentally sound manner.

To encourage and promote in all of its business activities the concept of waste control/ recovery and maximise the use of our recycling capabilities.

To set environmental objectives and targets with a clear management programme illustrating how they will be achieved.

To train, equip and support all employees to ensure systematic integration of environmental management activities into BSS life.

To liaise with suppliers and sub-contractors to encourage the adoption of environmentally sound practices.

To provide all interested parties with a copy of our Environmental Policy.

To maintain close liaison with the waste management regulator, the Environmental Agency.

To keep abreast of new environmental legislation to ensure continuous compliance.

To develop an incident reporting mechanism to respond to environmental accidents or emergencies which will minimise environmental damage and prevent reoccurrence.

To implement a measurement and monitoring programme to review progress towards objectives and targets.

Roles & Responsibilities

→ Overall responsibility for BSS policy lies with the business owner.

→ This policy is publicly available on demand.

→ This policy will be reviewed following any significant change of circumstances and at least every 12 months.
